Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by **Therasawa et al (6,147,714)**.

As to claim 1, note the **Therasawa** reference figures 20-23, discloses control apparatus and control method for displaying electronic program guide (EPG) and further discloses a receiver (IRD-2) for receiving signals and program guide information including at least start/end time information of programs, the receiver comprising:

A receiving unit (R-3) operable to receive broadcast signals and program guide information including start/end time information of the programs (figs.20-23, col.10, line 59-col.11, line 7, lines 21-37 and col.12, line 64-col.13, line 9);

Means for carrying out display processing (CPU-29) based on the received program guide information (col.12, lines 45-63);

A storage unit (EPG data storage 35 and EEPROM-38) operable to store information indicating whether contents displayed immediately before turning off a

Art Unit: 2623

power source for the receiver is a program guide or an image of a program (col.13, lines 10-40) and

A display controller (CPU-29) operable to display the program guide or a predetermined program image as an initial image corresponding to the information stored in the storage unit when the power is turned on (col.13, lines 10-40).

As to claim 2, Therasawa further discloses where the display controller displays the program guide, a recommended program included in the program guide information, or a program of the same genre as the genre of the program displayed immediately before the power source is turned off, in accordance with the information stored in the storage unit (col.13, lines 10-40 and col.18, lines 30-col.19, line 16

As to claim 3, the claimed "In a receiver having a power source, a method for receiving broadcast signals..." is composed of the same structure elements the were discussed with respect to the rejection of claim 1.

Claim 4 is met as previously discussed with respect to claim 2.

Response to Arguments

3. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection. The amendment to the independent claims necessitated the new ground(s) of rejection discussed above. This office action is made final.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Takahashi (6,260,195) discloses cable television system and terminal device for cable TV system.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Annan Q. Shang** whose telephone number is **571-272-7355**. The examiner can normally be reached on **700am-400pm**.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Christopher S. Kelley** can be reached on **571-272-7331**. The fax phone number for the organization where this application or proceeding is assigned is **571-273-8300**.
